The board of directors sees a shareholder value in being able to take advantage of attractive acquisition opportunities or otherwise make investments in promising projects and/or to broaden the shareholder base in a time-efficient manner. New issues of shares or issues of warrants or convertibles based on the authorization shall, in deviation from the shareholders' preferential rights, be made with the shareholders' best interest in mind and at a market-based subscription price according to the market conditions prevailing at the time of the issue of the shares, warrants and/or convertibles.

For transfers outside of Nasdaq Capital Market, the price shall be set so that the transfer is made at market terms, except for delivery of shares in connection with employee stock option programs.
5. Payment for transferred shares may be made in cash, through in-kind payment, or through set-off against claims with the Company.

The purpose of the authorizations is to give the board of directors greater scope to act and the opportunity to adapt and improve the Company's capital structure and thereby create further shareholder value, and take advantage of any attractive acquisition opportunities. The board of directors shall have the right to resolve on further terms for repurchases and transfers of own shares in accordance with its authorization.

Payment may be made in cash, in kind, through set-off of claims or otherwise be conditional. Deviation from the shareholders' preferential rights shall be allowed in order to prevent an impending takeover bid for shares and / or other share-related instruments in the Company, whereby the subscription price may fall below the market value. The authorization may only be used provided that it does not contravene the Swedish Companies Act or other applicable laws.
